

Midnight Singles International

The AI-powered dating platform for the world that never sleeps.

Video Speed Dating

AI-Native

Ad-Supported + Premium

29 Languages

The Problem 💔

Dating apps are broken for millions of people.

Pay-to-Play

Every major app locks features behind \$30+/mo paywalls. Free users get crippled experiences.

No Real Connection

Swipe-based matching leads to ghosting. Zero real-time interaction before meeting. No chemistry check.

Night Shift = Invisible

15M+ US night shift workers are ignored. Apps die after 10pm. Algorithms deprioritize late-night users.

The Overlooked Market 🎯

15M+

Night shift workers in the US alone

\$10.5B

Global online dating market (2024)

\$0

Competition targeting 11pm-3am

Who are they?

Healthcare workers, logistics, security, manufacturing, hospitality, gig workers, international users across time zones

Why now?

Post-pandemic shift work is up 23%. AI translation enables global cross-border dating. Ad tech makes free tiers viable.

The ad arbitrage

Late-night ad impressions cost LESS, but our users are MOST active then. Unit economics flip in our favor.

Our Solution 🚀

Dating reimaged: real-time, AI-powered, and free to use.

Video Speed Dating

1-on-1 live video rooms connecting people globally in real-time. See real chemistry instantly. No catfishing. No ghosting.

Dual Revenue Model

Free tier with ads (like Spotify) + premium subscriptions. First dating app to crack ad-supported dating.

AI-Native Features

Real-time translation (29 langs), AI date coach, voice icebreakers, smart matching — all powered by Gemini & ElevenLabs.

Night Owl Optimized

Built for 11pm-3am. Active matching, live speed dating rooms, and community when the rest of the dating world sleeps.

Why We Win 🏆

Feature	Tinder	Bumble	Hinge	Midnight Singles
Video Speed Dating	×	×	×	✓ Core Feature
Free Ad-Supported Tier	×	×	×	✓
AI Translation (29 langs)	×	×	×	✓
AI Voice Icebreakers	×	×	×	✓
AI Date Coach	×	×	×	✓
Night Shift Optimized	×	×	×	✓
Selfie Verification	Paid	×	×	✓ Free

Business Model

Two revenue engines. One platform.

Ad-Supported Free Tier

- Full access to matching & messaging
- Video speed dating with ads between rounds
- Late-night CPMs = better unit economics
- Target: \$2-4 ARPU/month

Premium Subscriptions

- Ad-free experience
- Unlimited video speed dating
- AI date coach & advanced features
- Priority matching
- \$14.99/month

Projected at scale: \$3M-\$5M/month revenue

Night shift beachhead → Global expansion → \$500M+ TAM

Built & Ready to Launch

Full-stack app built by a solo founder. Zero funding.

Core Platform

- Video calls & speed dating
- AI matching algorithm
- Selfie verification
- Audio messages
- Gift system

AI Features

- Gemini AI service
- ElevenLabs voice AI
- 29-language translation
- AI date coach
- Voice icebreakers

Infrastructure

- Flutter (iOS + Android)
- Firebase backend
- Content moderation
- Admin panel
- Marketing dashboard

Pre-launch — Code complete, ready for users

Go-to-Market Strategy

Phase 1: Night Owl Launch

- TikTok content targeting night shift workers (11pm-3am posting)
- Reddit communities: r/nightshift, r/nurses, r/truckers
- "Night Owl" brand identity — dating for people who don't sleep
- Influencer partnerships with night shift content creators

Phase 2: Global Expansion

- AI translation makes cross-border dating seamless
- Launch in markets with large shift worker populations
- International video speed dating events

Content Engine

AI-generated marketing content using ElevenLabs (voice), Gemini (copy), automated pipeline from creation → approval → posting

Viral Loop

Video speed dating clips (with consent) → TikTok/YouTube Shorts → organic growth. Real connections are the content.

Channels

TikTok: @midnightsingles

YouTube: @MidnightSinglesInternational

LinkedIn: Company page active

The Ask 🤝

\$250K - \$500K

Pre-seed investment to take Midnight Singles from built to launched.

40% — Engineering

Scale infrastructure, hire mobile engineer, optimize video speed dating for 10K+ concurrent users

35% — Growth

TikTok ad spend, influencer partnerships, Night Owl content campaign, community building

25% — Operations

App store launch, legal (Delaware C-Corp), content moderation team, 6-month runway

The Founder 🙌

Jamaine Martin

Founder & CEO

- Built entire platform solo — zero funding, zero team
- Former night shift worker — lived the problem firsthand
- Self-taught developer: Flutter, Firebase, AI integrations
- Full-time on Midnight Singles
- Applied to 3 grant programs in one week
- Relentless builder who ships, not just talks
